Dear Milka,

## Consolidated Approval Order for Intermountain Power

Enclosed is the original signature document accepting the terms of the proposed AO language and requesting an administrative correction to our Title V permit.

We are specifically asking that the Title V Permit Engineer Review Comment Section numbers 1 and 30 are modified to reflect the new AO. Please forward this information to the Title V section.

Thank you again for your time and patience in working with us to negotiate the terms on the AO. I think this new streamlined version will be much more workable for both the DAQ and IPSC.

Regards,
